DIVI SOUP

Fullwidth Header With Changing Words

Instructions

Step 1: Important the demo content

- Navigate to '*Tools>Import'* in your WordPress admin panel.
- Select *'Wordpress'* from the import list.
- Choose the *.xml* file you saved to your computer and click *'Upload file and import'*.
- Select a user to assign to from the dropdown list.
- Tick *'Download and import file attachments'* and click *'submit'*.

The file will be imported as a page, not an item in the Divi Library.

Step 2: Save to the library

- Navigate to *'Pages'* in your Wordpress admin panel.
- Find the page called *'Fullwidth Header with changing words – Export'* and open the page.
- You will see three sections, one for each the left, center and right alignment options. Save the section you want to use the library and then you can add it to any page you choose.

Step 3: Add the CSS

- Open up to *.css* file saved to your computer and select the section of css which corresponds with the alignment option you have chosen to use.
- Copy and paste that section of css into your epanel or child theme style sheet.

Don't forget to save!

That's it. Enjoy!

Please note this is a FREE resource and customisation support is not provided. If you would like any customisations please consider using the [DIVI FIXr](#) service.
